

## LULLABY CAROL

Sleep, little baby, sleep through the starry night,  
sleeping there like the sun.

Dream, little baby, of morning's new light,  
you have just begun.

Wake, little baby, the darkness has gone away,  
waking there like the sun.

Play, little baby, and light up our day,  
dawn has just begun.

Watch little baby, the lamb and the donkey,  
dancing round in the sun.

Smile, little baby, and open your hands,  
let us dance everyone.
