

THE STAR CAROL

Once there was a perfect star,
hangs in a dark sky, glistening light,
hidden by day, makes a sun at night,
leading to a baby who's softly sleeping.

Follow the star, it moves away,
wise men, shepherds, wandering far,
tracking the gleams of a shimmering star,
leading to a baby who's gently dreaming.

Watch where the star stays, stopped and still,
sheds its rays deep into the Earth,
shines on a valley, lights up a Birth,
look at the baby, now he's waking!

Wake up o Earth, see who you are,
spinning in the cosmos, just like a star,
playing your music, all through the spheres,
circling the sun for millions of years.

Millions of years – repeat

Songs of the animals, songs of the birds,

listen to their music, follow their words.

Love one another, care for your home,

do you know what song you're singing?

Altogether we make Earth's Song:

Holy are we,

Holy are you,

And Everything Living is Holy too.
